MESSAGE

Government of India is committed to meet the growing energy needs at faster pace for overall development of the country. To improve the economic growth rate of India and to meet the life time energy needs of the country, India needs to increase its primary energy requirements.

I am happy to learn that the Power Exchange India Ltd. is working on this platform. PXIL Annual Compendium, 2010 presents valuable views of key personalities in the Power Sector.

I wish the PXIL all the best for its continued efforts towards power sector.
