**Mumbai, October 29, 2014:** PXIL successfully conducted REC trading for the month of October 2014. The total cleared volume on the exchange was 37,738 RECs that led to PXIL having a Market Share of 50.73%. In this month clearing ratio was 0.66% due to low demand side participation.

The prices in the solar and non-solar categories have remained at the floor level in the market.

Prior to today's auction there were more than 11.07 Million REC's were available in the market for trade, however the traded volume have been low on account of widespread non-compliance by the obligated entities.
